

Achilles Therapeutics to present at Jefferies Virtual Healthcare Conference

May 28, 2020

Stevenage, UK 28 May, 2020 — Achilles Therapeutics (“Achilles”), a clinical-stage oncology company developing personalised cell therapies targeting clonal neoantigens, a novel class of tumour target, today announced that Iraj Ali, Chief Executive Officer, will present at the Jefferies Virtual Healthcare Conference on Tuesday, June 2, 2020, at 9:00 a.m. Eastern Time.

About Achilles Therapeutics

Achilles Therapeutics is a biopharmaceutical company developing personalised T cell therapies targeting clonal neoantigens: protein markers unique to the individual that are expressed on the surface of every cancer cell. Achilles uses DNA sequencing data from each patient, together with the proprietary PELEUS[®] bioinformatics platform, to identify clonal neoantigens specific to that patient, and then develop personalised T cell-based therapies specifically targeting those clonal neoantigens.

Achilles was founded in 2016 by lead investor Syncona Ltd and in September 2019 the Company raised £100M in an oversubscribed Series B financing led by RA Capital, cornerstoned by Syncona and joined by new investors including Forbion, Invus, Perceptive Advisors and Redmile Group.
